Send unlimited intake forms online.	\$75.00	\$150.00

HRS QTY	SERVICE	RATE PRICE	SUB TOTAL
2	Integration LawPay (Requires LawPay account) LawPay offers credit card processing designed for the unique needs of attorneys and has earned the approval of the American Bar Association and 39 state Charge Run payments without traditional credit card equipment. Simply log in to process transactions from your computer, tablet, or mobile phone. We securely handle transaction information, eliminating the need for your firm to store sensitive cardholder information. Collect Credit cards can be entered by your firm or directly by your clients. In addition to payment information, you can collect client details such as invoice, matter number, or other pertinent information. All data is captured to make reporting and accounting easier. Confirm Add a digital signature line to receipts. Clients can sign with a mouse or even on a touchscreen. The signature is stored electronically to confirm card authorizations. You can also request a digital signature from clients via email. Manage all signature settings from your own dashboard. Repeat Collect subsequent client payments by recharging a past transaction or establishing a recurring payment plan. This feature provides flexibility for you and your clients, allowing you to automatically run payments without collecting additional card information. Refund Charges or unearned fees are easily returned to the cardholder based on the original transaction. Refunds are reported and linked to the initial payment to establish a payment history and updated balance. Track Our custom dashboard gives you a comprehensive view of your transactions at a glance. Easily track recent transactions, processing volume, and payment trends. To assist in practice management, you have the ability to label or tag transactions to create customized reports.	\$75.00	\$150.00

Sub Total \$300.00
